

TAYYABA

Computer Science Student | Tech Enthusiast

+92 322 5728731 | tayyabaawan731@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated Computer Science student with a 3.7 CGPA, seeking opportunities to apply foundational programming, data, and design skills in a dynamic organization. Experienced in C, C++, Python, SQL, and data analysis, with hands-on project and automation experience and a strong drive to grow through hands-on contribution.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | National University of Pakistan | 2024 – Present

CGPA: 3.7 / 4.0

Key Courses: Programming Fundamentals, Discrete Structures, Application of ICT, Database Management Systems (DBMS), Computer Organization and Architecture (COA), Digital Logic Design (DLD), Information Security

Intermediate – Computer Science | BISE Rawalpindi | 2024

Score: 827 / 1200

PROJECTS

Weather Monitoring System | C++

- Built a console-based system to manage weather data (date, temperature, humidity, air pressure) using a vector-based data store.
- Implemented file handling for saving and loading records to ensure data persistence across sessions.
- Developed an alert module that notifies users when weather metrics exceed configurable thresholds.
- Added a prediction feature using historical averages to forecast next-day weather, plus a comparison tool to evaluate metrics between two dates.

Blood Donation Website | Basic Level

- Designed and developed a basic web platform to connect blood donors with recipients.
- Implemented core front-end structure and layout to enable donor registration and search functionality.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, HTML, Assembly Language
- **Database & Data:** SQL, MySQL, Data Analysis
- **Tools & Automation:** n8n (Workflow Automation / Chatbots)
- **Microsoft Office Suite:** Word, PowerPoint, Excel, Access, Spreadsheet
- **Multimedia & Design:** Graphics Designing, Video Editing, AI Image Generation

CERTIFICATIONS

- N8N Chatbot Lab
- Career Accelerator
- English for Career Development (MOOC)

CORE COMPETENCIES

- Communication and Presentation Skills
 - Teamwork and Collaboration
 - Problem-Solving and Critical Thinking
 - Time Management and Organization
-
